## 2005 FG3.3

如圖,一長方形與圓相交於點  $B \cdot C \cdot E \not B F$ 。已知 AB = 4 cm, BC = 5 cm  $\mathcal{B}DE = 3 \text{ cm}$ 。若 EF = c cm,求 c 的值。

In the figure, a rectangle intersects a circle at points B, C, E and F. Given that AB = 4 cm, BC = 5 cm and DE = 3 cm. If EF = c cm, find the value of c.
